PROTECTION CLASS FRONIUS GALVO

Fronius International GmbH

hereby certifies that the following inverters fulfil the requirements of protection class IP 65 according to IEC 60529.

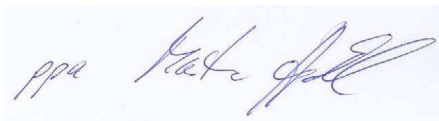

The inverters are approved for outdoor installation:

Inverter Type	Protection class
Fronius Galvo 1.5-1	IP 65
Fronius Galvo 2.0-1	IP 65
Fronius Galvo 2.5-1	IP 65
Fronius Galvo 3.0-1	IP 65
Fronius Galvo 3.1-1	IP 65

To avoid an additional thermal load on the inverters via direct sunlight, it is recommended that the Fronius Galvo be installed in a protected position, e.g. under the solar modules or under a roof overhang. In addition, the information in the operating instructions regarding installation location selection must be followed.
